

Gathering Mavericks - Oregon Trail

Canby, OR (Oregon City)

June 22, 2024, Saturday morning

Clay Nash:

There is a rich history here. I sense the well. I believe in redigging wells but let me tell you what I believe in greater...digging new wells. I come from a well-drilling family. In fact, the Nash family was the largest well-drilling service in the State of Arkansas at one time, so I know a little bit about wells. The well is important, but the source is significant. Sometimes you redig a well. In fact, my dad would dig wells but then he would just move over to a different spot and dig a new well and get to the source in a better way. I do believe we are redigging some wells, but I also believe we are digging new wells tapping into the same source. So, I just speak that Word over you, Oregon. Redigg the old wells that God tells you to but be willing to move over. I believe we are digging new wells here.

Tsunami Dream

There's a tsunami coming to this nation. For those that have eyes to see, ears to hear and a heart to be obedient to God, it's going to be a tsunami of His glory. It's going to touch every creed, every ethnicity, every age. It's coming. I believe some of the shaking that we are experiencing in this nation. I didn't come here to talk about the corruption, but I have to tell you at times I feel overwhelmed by the corruption that's in our judicial system. I tell my wife quite often as I used to trust the judicial system, I've lost trust in them. How many of you have ever been taught trust is earned? I don't agree with that. I believe trust is a choice, respect is earned. Because if you don't first choose to trust someone, they can't earn your respect.....I choose to trust people, then they can earn my respect, or they can earn my disrespect. I believe that one of the things that God is saying to all of the body of Christ today is that we've got to start trusting people.

This tsunami that's coming is going to elevate us into a place of authority and purpose that we've not experienced so far. It's so important to understand this. Oregon, People of Oregon, last night, please it's not about us, it's not about the worship, but things happened here last night. Lives were changed, assignments were changed. There's a hard pan here in Oregon. I come from a farming background that's reasonably pulled breaking plows. It's not just to turn the soil over, we pull breaking plows so that we can break that hard pan. God began a subsoiling of earth of Oregon. I believe it started before we got here but He increased it. I used to sell a piece of equipment called a subsoiler and they sold in three times, five times, seven times and if you really had one of those big four-wheel tractors you might have a nine time.... It has a certain angle to it and it reaches down in there. I had a

dream last night that I was on a big four-wheel drive tractor going down the Oregon Trail breaking the hard pan, and someone came to me and said, "You're doing away with all the ruts, all the wagon wheel ruts." And I told him, "But we've got to break this hard pan." Because when the hard pan is broken, roots can go down. They can get to moisture; they can get to nutrients. And I just see God breaking the hard pan, but He's doing it with you. Every one of you have a place of responsibility that you're to be the subsoiler. You're to be the one.

How many of you remember the movie, Tremors where there were these creatures that burrowed under the ground? Anyway, I had a dream about Independence Rock and the body of Christ gathered on Independence Rock because all of these creatures were causing tremors, and they could feel the vibrations and everything. And we all gathered there, and we made a command and every one of them came up out of the earth into the sunlight and they all metamorphosed into butterflies. I don't know if you saw the movie, but that creature compared to a butterfly, the butterfly was a whole lot more beautiful. So, there's some good things coming. We know we have an assignment. There's a big Freemasonry thing there at Independence Rock. We have an assignment while we're in the Casper area. I want to encourage you that you're coming out, your faithfulness is so important.

This tsunami of God's glory that's coming it's going to be an empowering thing. People that you don't believe can be born again will be born again. You watch, when you begin to see gang leaders be born again evangelists, you will know that tsunami is sweeping across this nation. There're some people that's going to be born again that you are going to be amazed.

This tsunami's coming and it's going to sweep over this nation and those with eyes of discernment, they're going to recognize that God sent it and they're going to decree into it and step into it and be lifted to higher places of authority and purpose.

Pastor Lana Ritter:

I'm going to give you briefly who I am because I firmly believe that you need to know who you are listening to. You can't just hear any word that's put before you and I don't know any of you except Sharon who came with me, and she can vouch for me. So, my name is Lana Ritter and I am 77 years old, I'm married, been married for 56 years to the same guy naturally. There is a God! I have two children, two boys. They each have 4 kids, so I have 8 grand kids. And I have 7 and 2/3 great-grandkids. I am a nurse; I am an RN. I've been an RN forever and I'm also an ordained pastor. I tell you that I'm a nurse because I've worked with, and I know mental illness and I've worked everywhere in hospitals. I know everything

from helping to deliver babies because the doctors didn't make it on time and to wrapping people in body bags. I've done everything in nursing including the supervising. And I had a stroke. Two years ago, I had a stroke, and I was completely paralyzed on my left side. I had on my right side a large stroke. They were going to take me to OHSU, but I had within twenty minutes all of the symptoms I had total left side paralysis. You guys know about strokes. So, I had one but within 20 minutes, it was all gone, total, total gone. They shipped me to OHSU because they said Well it could come back but I said, oh, you've got to be kidding me, it's not even there anymore. They did another CT scan, and it wasn't there. Surprise, surprise. So, they sent me home the next day because they have to keep me for a while. The Lord woke me up this morning and I have a message for all of you, every single, solitary one of you. This is about what Clay has been talking about. Hearing, do you recognize the voice? Do you know that it is Jesus? Do you know that it's God? Do you know that it's the Holy Spirit? You know they all three can talk to you and they do? Anymore they announce this is Jesus speaking. OK This is so very, very, very important because of all the lying that's out there. Just like there's a huge cloud of lie over our nation so we've got to know who is speaking to us that it is Jesus. I grew up Lutheran, so all the spiritual stuff was over me. I had great teaching in theology though because I went to catechism for three years every Saturday morning for two hours and it was an Evangelical Lutheran church, and it was great theology. All the spiritual stuff, that's been coming, and I will just say God has reared me and He has. I was never into drugs, never into anything. My father was a cop, he was secretary of police in Toledo, Ohio. You don't get into trouble when everybody knows you're his daughter. It doesn't happen. So, I never got into any of that kind of stuff but God systematically raised me for Him through the church. I was taken to church, I was even baptized as a baby and baptized later as an adult. The reason I'm telling you this is because there are different kinds of people out there that you are going to meet. One place I was asked to speak at an Aglow and I said I don't have a story and I don't. I don't have this awful story. My husband became a pastor, and I didn't know what warfare was until you marry, and my husband became a pastor. I learned all about the devil right away and I knew warfare. So, hearing, hearing, hearing, hearing, hearing, hearing, hearing, hearing, my job this morning is to tell you that much about me but I am to pray. I am to pray for you, and you are to pray for people everywhere that they be able to hear, discern the voice of Jesus. That they be able to discern the voice because I didn't. Because I was raised in the Lutheran church thirty years, I was told from all the churches that we went to after that which were not, we left the Lutheran church. But I was told, how do you know you are hearing the voice? All this doubt was put on me. How do you know it's God? So, I began to doubt myself until one day I said, Your Word says, Your sheep know Your voice so I know Your voice! So just shut up all the rest of you people and devils, demons. So that's what I am to pray for so that word get out because He wants to speak to all of you. He is speaking

to all of you but not all of you are hearing Him. You've got to have discernment because the enemy speaks too. You probably know that. I had to learn that later.

So, let's pray: Heavenly Father, we come before Your throne of grace at this time and we ask for an impartation of discernment, increased ability, the binding of the devil in Jesus' name so that all of us can hear Your voice, Lord Jesus; hear Your voice, Lord Jehovah God; hear Your voice Holy Spirit. You are speaking to us. You have things to say. You love us; You're passionate for us. We are passionate for You that's why we are here but there are things that get in the way, our flesh, the world, the devil and all that kind of stuff. We need You. We need a sovereign movement, a sovereign impartation of You to do away with all that other stuff because the times that are coming, we know are going to be difficult and we need to hear You and we need to be able to walk with You, one on one and in groups. Lord, give us groups of people who hear You. Band us together, bind us together so that we can depend on and trust on each other. You've given me groups like that I am so appreciative but there is nothing like hearing Your voice like whatever time it is, all day long. He talks all day long. (One of my good friends hears Him all day long.) So, Jesus, we need You. We need to hear You; we need to walk with You and talk with You just like in the garden in our quiet times and also when our times get really troubled, we get emotional and it's more difficult to hear. So, we ask that you settle us, give us Your peace and help us to hear. Thank You, Jesus. Amen

Tom Schlueter:

I just need to share this, Clay. Earlier you said the move when Jesus answered the church moving away from the charismatic to the spiritual. He's given me that same word over the last ten years and He said last night, the Lord's given me this revelation about the legislative authority of the church. We call it tribunals. You can get my book but a couple of weeks ago, about ten days ago, I was in my quiet time with the Lord and He said, "Tom, I gave that to you not as a teaching but as a strategy." And that's what's happening here. Now Clay could stand up here and we've done that in charismatic meetings all of our lives. You get somebody up here that knows healing and they teach on it for forty minutes, bless everybody and then go home. That's not what's happening here. The strategy of healing is being released into the body. The strategy of healing. So please receive that. This is the changing of the Ekklesia.

Clay:

I knew that we were to step into this because one of the things that this morning in prayer the Lord spoke to me this morning is that Oregon is going to lead the nation in this new

healing movement. Now that doesn't mean you're going to be the only one. How many of you know 50 states can lead in a healing movement? You know, I'm from Arkansas and when Chuck and Dutch did the 50-State Tour they were in Arkansas on February 24, 2004. That's when Arkansas's time came up. One of the Words that Chuck released during the 50-State Tour was that "As goes Arkansas, so goes the nation." Now that doesn't make Arkansas more important than Oregon or Texas, or any significant Word. Now we've been working that Word there in Arkansas. Working it tremendously.

Tom Schlueter:

Let me just speak the blessings of Texas over y'all: Everything good that God wants to do in Oregon, but not just Oregon, in Idaho, in Wyoming, Nebraska, Missouri, all along, Washington, all the Northwest. How about just all the 50 states? Lord, America is being saved and we are a part of it. So, God bless you! Amen.

Matt Coss

We turned over the earth last night. It says in the scriptures that all creation is longing for the sons and daughters of God to be made manifest. I just did a beautiful songwriting project a couple of weeks ago in Muscle Shoals, Alabama and on my way there the Lord spoke to me as I was recalling this verse that all creation is groaning with eager expectations. And the way I was saying it, the words that came out were "all creation is groaning for the songs of the sons of God to come forth." And there are things in the earth that God is turning over and uncovering and there is a sound in the land that is crying out for sons of God and daughters of God to sing so that creation can also come in alignment with heaven. That's why it's groaning. It's not a celebration, it's a mourning; it's a grieving. The land is grieving for the injustices that have taken place. It says that the blood of Abel cries out from the ground. There are sounds in the land, in the ground that are crying out so that the sons and daughters of God can catch it and sing the song that was meant to be sung in the region. And so, as a worshipper, as a worship leader, and as a man who carries songs and writes songs, I want to release to you the anointing in the authority to discover the songs of the land and to release them. Cause every region, every land, every region has a sound. You know, I just spent a lot of time in Memphis and Muscle Shoals and Macon and there is a sonic and spiritual line of demarcation coming off of Appalachia into the sandy South and that's the territory that I'm really in. And there's a sound in Memphis, and a different sound all the way into the Delta and New Orleans. There's a sound in Macon where the Allman Brothers came out of. Little Richard and Etta James recorded in Muscle

Shoals, and we got to record in some of those spaces and it was incredible. But there is a sound up here in the Northwest and I'm trying to tune my spiritual ear to hear also what is creation longing? Because there's a sound in you that you think you're supposed to catch the sound in the earth, but there's actually a sound in the earth that's saying "no, there's a sound in you that we want to hear." So, Lord, I just declare right now: Ears to be open to hear the sound that You want to release in this region. Not just to tap into the sound that's already here, but that creation is longing and groaning for the sound of God to be released by the sons and daughters of God that creation may come into its proper order. There is an authority and declaration on the sound of the sons and daughters of God, and we release it in the name of Jesus. Lord, open our ears that we might hear, open our eyes that we might see and in seeing, we will sing the sound of heaven. Lord, tune us to the frequency of the Father, and may the heart of the Father be released in this region that creation might come into order, that political systems might come into order, that educational systems might come into order, that the family unit might come into order, and we declare it in the mighty name of Jesus. Amen

Clay

As Matt was speaking, I heard the Lord say, Oregon, I've transitioned you from analog to digital this weekend. He said, no longer will you drift off frequency for that which I have done in shifting you to digital, will stabilize My move through you for the days that are ahead. So, leave here today knowing that you won't have to touch the tuning knob, nor will you have to turn the frequency oscillator to bring back in what I'm saying to order. You are now fixed in to My digital frequency and you won't drift, says the Lord.
